# Contents

<b>1</b>	<b>Purpose of the Project</b>	<b>vi</b>
1.1	User Business . . . . .	vi
1.2	Goals of the Project . . . . .	vi
<b>2</b>	<b>Stakeholders</b>	<b>vi</b>
2.1	Client . . . . .	vi
2.2	Customer . . . . .	vi
2.3	Other Stakeholders . . . . .	vi
2.4	Hands-On Users of the Project . . . . .	vi
2.5	Personas . . . . .	vi
2.6	Priorities Assigned to Users . . . . .	vi
2.7	User Participation . . . . .	vii
2.8	Maintenance Users and Service Technicians . . . . .	vii
<b>3</b>	<b>Mandated Constraints</b>	<b>vii</b>
3.1	Solution Constraints . . . . .	vii
3.2	Implementation Environment of the Current System . . . . .	vii
3.3	Partner or Collaborative Applications . . . . .	vii
3.4	Off-the-Shelf Software . . . . .	vii
3.5	Anticipated Workplace Environment . . . . .	vii
3.6	Schedule Constraints . . . . .	vii
3.7	Budget Constraints . . . . .	vii
3.8	Enterprise Constraints . . . . .	viii
<b>4</b>	<b>Naming Conventions and Terminology</b>	<b>viii</b>
4.1	Glossary of All Terms, Including Acronyms, Used by Stakeholders involved in the Project . . . . .	viii
<b>5</b>	<b>Relevant Facts And Assumptions</b>	<b>viii</b>
5.1	Relevant Facts . . . . .	viii
5.2	Business Rules . . . . .	viii
5.3	Assumptions . . . . .	viii
<b>6</b>	<b>The Scope of the Work</b>	<b>viii</b>
6.1	The Current Situation . . . . .	viii
6.2	The Context of the Work . . . . .	viii
6.3	Work Partitioning . . . . .	ix

6.4	Specifying a Business Use Case (BUC)	ix
<b>7</b>	<b>Business Data Model and Data Dictionary</b>	<b>ix</b>
7.1	Business Data Model	ix
7.2	Data Dictionary	ix
<b>8</b>	<b>The Scope of the Product</b>	<b>ix</b>
8.1	Product Boundary	ix
8.2	Product Use Case Table	ix
8.3	Individual Product Use Cases (PUC's)	ix
<b>9</b>	<b>Functional Requirements</b>	<b>ix</b>
9.1	Functional Requirements	ix
<b>10</b>	<b>Look and Feel Requirements</b>	<b>xi</b>
10.1	Appearance Requirements	xi
10.2	Style Requirements	xii
<b>11</b>	<b>Usability and Humanity Requirements</b>	<b>xii</b>
11.1	Ease of Use Requirements	xii
11.2	Personalization and Internationalization Requirements	xii
11.3	Learning Requirements	xii
11.4	Understandability and Politeness Requirements	xii
11.5	Accessibility Requirements	xii
<b>12</b>	<b>Performance Requirements</b>	<b>xii</b>
12.1	Speed and Latency Requirements	xii
12.2	Safety-Critical Requirements	xii
12.3	Precision or Accuracy Requirements	xiii
12.4	Robustness or Fault-Tolerance Requirements	xiii
12.5	Capacity Requirements	xiii
12.6	Scalability or Extensibility Requirements	xiii
12.7	Longevity Requirements	xiii
<b>13</b>	<b>Operational and Environmental Requirements</b>	<b>xiii</b>
13.1	Expected Physical Environment	xiii
13.2	Wider Environment Requirements	xiii
13.3	Requirements for Interfacing with Adjacent Systems	xiii
13.4	Productization Requirements	xiv

13.5 Release Requirements . . . . .	xiv
<b>14 Maintainability and Support Requirements</b>	<b>xiv</b>
14.1 Maintenance Requirements . . . . .	xiv
14.2 Supportability Requirements . . . . .	xiv
14.3 Adaptability Requirements . . . . .	xiv
<b>15 Security Requirements</b>	<b>xiv</b>
15.1 Access Requirements . . . . .	xiv
15.2 Integrity Requirements . . . . .	xiv
15.3 Privacy Requirements . . . . .	xiv
15.4 Audit Requirements . . . . .	xv
15.5 Immunity Requirements . . . . .	xv
<b>16 Cultural Requirements</b>	<b>xv</b>
16.1 Cultural Requirements . . . . .	xv
<b>17 Compliance Requirements</b>	<b>xv</b>
17.1 Legal Requirements . . . . .	xv
17.2 Standards Compliance Requirements . . . . .	xv
<b>18 Open Issues</b>	<b>xv</b>
<b>19 Off-the-Shelf Solutions</b>	<b>xv</b>
19.1 Ready-Made Products . . . . .	xv
19.2 Reusable Components . . . . .	xv
19.3 Products That Can Be Copied . . . . .	xvi
<b>20 New Problems</b>	<b>xvi</b>
20.1 Effects on the Current Environment . . . . .	xvi
20.2 Effects on the Installed Systems . . . . .	xvi
20.3 Potential User Problems . . . . .	xvi
20.4 Limitations in the Anticipated Implementation Environment That May Inhibit the New Product . . . . .	xvi
20.5 Follow-Up Problems . . . . .	xvi
<b>21 Tasks</b>	<b>xvi</b>
21.1 Project Planning . . . . .	xvi
21.2 Planning of the Development Phases . . . . .	xvi

<b>22 Migration to the New Product</b>	<b>xvii</b>
22.1 Requirements for Migration to the New Product . . . . .	xvii
22.2 Data That Has to be Modified or Translated for the New System	xvii
<b>23 Costs</b>	<b>xvii</b>
<b>24 User Documentation and Training</b>	<b>xvii</b>
24.1 User Documentation Requirements . . . . .	xvii
24.2 Training Requirements . . . . .	xvii
<b>25 Waiting Room</b>	<b>xvii</b>
<b>26 Ideas for Solution</b>	<b>xvii</b>

## Revision History

Date	Version	Notes
Date 1	1.0	Notes
Date 2	1.1	Notes

# **1 Purpose of the Project**

## **1.1 User Business**

*Insert your content here.*

## **1.2 Goals of the Project**

*Insert your content here.*

# **2 Stakeholders**

## **2.1 Client**

*Insert your content here.*

## **2.2 Customer**

*Insert your content here.*

## **2.3 Other Stakeholders**

*Insert your content here.*

## **2.4 Hands-On Users of the Project**

*Insert your content here.*

## **2.5 Personas**

*Insert your content here.*

## **2.6 Priorities Assigned to Users**

*Insert your content here.*

## **2.7 User Participation**

*Insert your content here.*

## **2.8 Maintenance Users and Service Technicians**

*Insert your content here.*

# **3 Mandated Constraints**

## **3.1 Solution Constraints**

*Insert your content here.*

## **3.2 Implementation Environment of the Current System**

*Insert your content here.*

## **3.3 Partner or Collaborative Applications**

*Insert your content here.*

## **3.4 Off-the-Shelf Software**

*Insert your content here.*

## **3.5 Anticipated Workplace Environment**

*Insert your content here.*

## **3.6 Schedule Constraints**

*Insert your content here.*

## **3.7 Budget Constraints**

*Insert your content here.*

### **3.8 Enterprise Constraints**

*Insert your content here.*

## **4 Naming Conventions and Terminology**

### **4.1 Glossary of All Terms, Including Acronyms, Used by Stakeholders involved in the Project**

*Insert your content here.*

## **5 Relevant Facts And Assumptions**

### **5.1 Relevant Facts**

*Insert your content here.*

### **5.2 Business Rules**

*Insert your content here.*

### **5.3 Assumptions**

*Insert your content here.*

## **6 The Scope of the Work**

### **6.1 The Current Situation**

*Insert your content here.*

### **6.2 The Context of the Work**

*Insert your content here.*

## **6.3 Work Partitioning**

*Insert your content here.*

## **6.4 Specifying a Business Use Case (BUC)**

*Insert your content here.*

# **7 Business Data Model and Data Dictionary**

## **7.1 Business Data Model**

*Insert your content here.*

## **7.2 Data Dictionary**

*Insert your content here.*

# **8 The Scope of the Product**

## **8.1 Product Boundary**

*Insert your content here.*

## **8.2 Product Use Case Table**

*Insert your content here.*

## **8.3 Individual Product Use Cases (PUC's)**

*Insert your content here.*

# **9 Functional Requirements**

## **9.1 Functional Requirements**

1. **Requirement:** The tool must accept Python source code files.

**Fit Criteria:** The tool successfully processes valid Python files without errors and provides feedback for invalid files.

2. **Requirement:** The tool must identify specific code smells that can be targeted for energy saving.

**Fit Criteria:** The tool should be able to detect and report at least 80% of the following code smells using predefined rules or existing linters. Code smells include: Large Class (LC), Long Parameter List (LPL), Long Method (LM), Long Message Chain (LMC), Long Scope Chaining (LSC), Long Base Class List (LBCL), Useless Exception Handling (UEH), Long Lambda Function (LLF), Complex List Comprehension (CLC), Long Element Chain (LEC), Long Ternary Conditional Expression (LTCE).

3. **Requirement:** The tool must suggest at least one appropriate refactoring for each detected code smell to decrease energy consumption or indicate that none can be found.

**Fit Criteria:** The suggested refactored code demonstrates a measurable improvement in energy measured in joules.

4. **Requirement:** The tool must implement an algorithm to choose the most optimal refactoring based on measured energy consumption.

**Fit Criteria:** The algorithm evaluates multiple refactoring options and selects the one that results in the lowest energy consumption for the given code smell.

5. **Requirement:** The tool must produce valid refactored python code as output or indicate that no possible refactorings were found.

**Fit Criteria:** The output code is syntactically correct and adheres to Python standards, validated by an automatic linter.

6. **Requirement:** The tool must report to the user any discrepancies between the original and suggested refactored code.

**Fit Criteria:** Discrepancy reports to user clearly highlight differences in outputs

7. **Requirement:** The tool must allow users to input their original test suite as a required argument.

**Fit Criteria:** Users can specify a path to their test suite, and the tool recognizes and utilizes it for testing the refactored code.

8. **Requirement:** The tool must ensure that the original functionality of the code is preserved after refactoring.

**Fit Criteria:** The tool runs the original test suite against the refactored code, and passes 100% of the tests.

9. **Requirement:** The tool must be compatible with various Python versions and common libraries.

**Fit Criteria:** The tool operates correctly with the latest two major versions of Python (e.g., Python 3.8 and 3.9) and commonly used libraries.

10. **Requirement:** The tool must generate comprehensive reports on detected smells, refactorings applied, energy consumption measurements, and testing results.

**Fit Criteria:** Reports are clear, well-structured, and provide actionable insights, with users able to easily understand the results.

11. **Requirement:** The tool must provide comprehensive documentation and help resources.

**Fit Criteria:** Documentation covers installation, usage, and troubleshooting, receiving positive feedback for clarity and completeness from users.

## 10 Look and Feel Requirements

### 10.1 Appearance Requirements

*Insert your content here.*

## **10.2 Style Requirements**

*Insert your content here.*

## **11 Usability and Humanity Requirements**

### **11.1 Ease of Use Requirements**

*Insert your content here.*

### **11.2 Personalization and Internationalization Requirements**

*Insert your content here.*

### **11.3 Learning Requirements**

*Insert your content here.*

### **11.4 Understandability and Politeness Requirements**

*Insert your content here.*

### **11.5 Accessibility Requirements**

*Insert your content here.*

## **12 Performance Requirements**

### **12.1 Speed and Latency Requirements**

*Insert your content here.*

### **12.2 Safety-Critical Requirements**

*Insert your content here.*

### **12.3 Precision or Accuracy Requirements**

*Insert your content here.*

### **12.4 Robustness or Fault-Tolerance Requirements**

*Insert your content here.*

### **12.5 Capacity Requirements**

*Insert your content here.*

### **12.6 Scalability or Extensibility Requirements**

*Insert your content here.*

### **12.7 Longevity Requirements**

*Insert your content here.*

## **13 Operational and Environmental Requirements**

### **13.1 Expected Physical Environment**

*Insert your content here.*

### **13.2 Wider Environment Requirements**

*Insert your content here.*

### **13.3 Requirements for Interfacing with Adjacent Systems**

*Insert your content here.*

## **13.4 Productization Requirements**

*Insert your content here.*

## **13.5 Release Requirements**

*Insert your content here.*

# **14 Maintainability and Support Requirements**

## **14.1 Maintenance Requirements**

*Insert your content here.*

## **14.2 Supportability Requirements**

*Insert your content here.*

## **14.3 Adaptability Requirements**

*Insert your content here.*

# **15 Security Requirements**

## **15.1 Access Requirements**

*Insert your content here.*

## **15.2 Integrity Requirements**

*Insert your content here.*

## **15.3 Privacy Requirements**

*Insert your content here.*

## **15.4 Audit Requirements**

*Insert your content here.*

## **15.5 Immunity Requirements**

*Insert your content here.*

# **16 Cultural Requirements**

## **16.1 Cultural Requirements**

*Insert your content here.*

# **17 Compliance Requirements**

## **17.1 Legal Requirements**

*Insert your content here.*

## **17.2 Standards Compliance Requirements**

*Insert your content here.*

# **18 Open Issues**

*Insert your content here.*

# **19 Off-the-Shelf Solutions**

## **19.1 Ready-Made Products**

*Insert your content here.*

## **19.2 Reusable Components**

*Insert your content here.*

### **19.3 Products That Can Be Copied**

*Insert your content here.*

## **20 New Problems**

### **20.1 Effects on the Current Environment**

*Insert your content here.*

### **20.2 Effects on the Installed Systems**

*Insert your content here.*

### **20.3 Potential User Problems**

*Insert your content here.*

### **20.4 Limitations in the Anticipated Implementation Environment That May Inhibit the New Product**

*Insert your content here.*

### **20.5 Follow-Up Problems**

*Insert your content here.*

## **21 Tasks**

### **21.1 Project Planning**

*Insert your content here.*

### **21.2 Planning of the Development Phases**

*Insert your content here.*

## **22 Migration to the New Product**

### **22.1 Requirements for Migration to the New Product**

*Insert your content here.*

### **22.2 Data That Has to be Modified or Translated for the New System**

*Insert your content here.*

## **23 Costs**

*Insert your content here.*

## **24 User Documentation and Training**

### **24.1 User Documentation Requirements**

*Insert your content here.*

### **24.2 Training Requirements**

*Insert your content here.*

## **25 Waiting Room**

*Insert your content here.*

## **26 Ideas for Solution**

*Insert your content here.*

## Appendix — Reflection

The information in this section will be used to evaluate the team members on the graduate attribute of Lifelong Learning. Please answer the following questions:

1. What knowledge and skills will the team collectively need to acquire to successfully complete this capstone project? Examples of possible knowledge to acquire include domain specific knowledge from the domain of your application, or software engineering knowledge, mechatronics knowledge or computer science knowledge. Skills may be related to technology, or writing, or presentation, or team management, etc. You should look to identify at least one item for each team member.
2. For each of the knowledge areas and skills identified in the previous question, what are at least two approaches to acquiring the knowledge or mastering the skill? Of the identified approaches, which will each team member pursue, and why did they make this choice?
